

For Immediate Release

Eco-Tec Awarded Water Treatment System Contract by KCPL

April 21, 2008 Pickering, Ontario – Eco-Tec is proud to announce that it has recently been awarded the contract for the water treatment system by Kansas City Power & Light (KCPL) located in Kansas City, Missouri for their Hawthorn Station.

"Eco-Tec is extremely pleased to have been selected by the KCPL Team for the Hawthorn Project" stated Deep Rana, Director of Sales, "as it reiterates our commitment to supplying innovative and advanced technology. We continue to strive in offering best value solutions that exceed our clients requirements."

This second system supplied to KCPL integrates water treatment components including two trains of filtration, single-pass Eco-RO™ and two Recoflo® polishers which will result in a demineralized water quality of less than 0.1 µS/cm at 450 gpm. This is the second recent installation where Eco-Tec's Recoflo® polishers have replaced electrodeionization (EDI) systems.
